

***4th Biennial Global Environment Facility (GEF) International Waters Conference***

GETF organized the Fourth Biennial Global Environment Facility International Waters Conference held in Cape Town, South Africa in August 2007. The primary objective of the conference was to foster knowledge sharing and collaboration between the Global Environment Facility (GEF) International Waters portfolio (nearly \$4 billion allocated) project managers, participating governments, Implementing Agencies (UNDP, UNEP, World Bank) and Executing Agencies (UNIDO, IMO, OAS, NGOs). GETF was engaged in all worldwide marketing, promotion and logistical aspects of the event involve a range of outreach efforts including the development of event promotional materials, brochures, and websites. GETF organized the First International Waters Conference that was held in Budapest, Hungary in October 2000, the Second International Waters Conference that was held in September 2002 in Dalian, China, and the Third International Waters Conference that was held in June 2005 in Salvador, Bahia, Brazil.
